SUMMARY	A fresh graduate in Computer Engineering with a passion for solving math and logical problems. I am dual-passionate about data analytics and design, seeking a Data Analyst position to leverage my skills in Excel, Python, and SQL for data synthesis, interpretation, and communication of trends. Proficient in creating effective and engaging data visualizations using Power BI.

EDUCATION

Bachelor of Science in Computer Engineering Aug 2020 - July 2024
Adamson University

Science, Technology, Engineering & Mathematics (S.T.E.M) Aug 2018 - June 2020
Mapua University - Intramuros

AWARDS

Academic Merit Awardee July 2024

WORK EXPERIENCE

Forthworth Inc. - Technokids July - Aug 2023
Web Development Intern
- Designed a intern application website for the company using HTML, CSS and Bootstrap.
- Fixed the database integration of the website using XAMPP and MariaDB.
- Regularly communicated with supervisor to provide updates and incorporate his suggestions into the project.

Adamson Computer Engineering Society (ACOES) 2021-2023
Multimedia Directress Head
- Led the multimedia team of 5 junior officers, overseeing all multimedia projects.
- Assigned tasks to junior officers, ensuring efficient workflow and timely completion of projects.
- Provided actionable advice and feedback on design improvements, helping junior officers enhance their skills and deliver high-quality work.

Atruhack, Hackathon event conducted By AdUNest Feb - July 2022
Multimedia Design Team
- Collaborated with team members to ensure a cohesive design strategy.
- Coordinated with the marketing team to align design work with promotional strategies.
- Engaged in discussions with coordinators to gather feedback and ensure alignment with the event's branding and messaging.

KEY SKILLS

- **SQL** (PostgreSQL, MySQL Workbench, MongoDB, MariaDB)
- **Python** (Numpy, Pandas, Seaborn, Matplotlib)
- **Power BI** (DAX, PowerQuery)
- **Microsoft Excel** (Power Query, Pivot, VLOOKUP)
- **Git** (Version Control System)
- **UiPath** (RPA Tool)
- **HTML, CSS, JavaScript, C#, C++** (Programming Languages)

PROJECTS

Monthly Visualization of Television Brand Sales Data: Data Cleaning with SQL and Visualization using Power BI.

Two-Week Temperature Analysis and Data Visualization in Pasay City using DHT11 Sensor and Python Libraries such as Pandas, Seaborn, and Matplotlib.

Strategic Recommendations for Food and Beverage Offerings in New Store Locations: An Analysis of Sales Performance by Store Type using Excel Power Query and PowerBI for visualization.

CERTS

- **Microsoft Power BI Desktop for Business Intelligence** by Maven Analytics
- **Data Analyst in Python, Tableau, SQL & ChatGPT with Projects** by Graeme Gordon
- **Python Complete Course For Python Beginners** by Horizon Tech
